IT'S ALL ABOUT THE DETAILS

ECOLINE SOLID CORE CONSTRUCTION

Our Ecoline interior doors are constructed with a solid core structure, ensuring durability and strength. These doors feature a robust fiber board core, surrounded by an eco-friendly veneer, offering a sustainable and stylish alternative to traditional wood. The combination of solid core and eco-friendly veneer creates beautifully crafted, modern interior doors that are both durable and environmentally conscious.

UP CLOSE & PERSONAL

CROSSBAND:

MDF - Fiberboard of medium density.

CORE:

Durable, long-lasting natural fiber board, which decreases sound.

STILES:

Solid engineered wood stiles and rails with matching edges.
